

# **RIDE** ——— ————— **Tech** **INFORMATION SHEET**

Ride Tech offers the latest suspension technology to improve the ride and handling of today's snowmobiles. Generic factory settings are a compromise that try to please everyone, something we all know can't be done. We offer basic shock service and complete suspension upgrade kits to fit different styles of riders. In order to best serve you, the following information should be included (form can be copied off our web site or info written on a piece of paper) when sending in your shocks. Best shipping method is to pack shocks (DO NOT wire/tie shocks in closed position and springs can be removed) tightly in crumpled newspaper to prevent movement during shipping. We will contact you for payment information.

**Thank you for your business and enjoy the RIDE!**

## **Check type of service you would like performed:**

Basic shock service       Ride Tech Stage 1       Ride Tech Stage 2  
 Ride Tech Stage 2 Plus       Ride Tech Stage 3

Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip code: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

Weight: \_\_\_\_\_ Age: \_\_\_\_\_

Type of rider:  Hardcore: mostly standing       Aggressive: standing and sitting

High Performance: mostly sitting       Cruiser: touring/sitting

Make: \_\_\_\_\_ Model: \_\_\_\_\_ Year: \_\_\_\_\_

Miles on shocks since last serviced: \_\_\_\_\_

Are shocks stock (no changes from factory settings)?       Yes       No

For Ride Tech Stages (not needed for Basic Shock Service) - What changes would you like from current setup or what you do not like about current ride (bottoms on big hits, rides rough in washboard, front end pushes, tips in corners, etc) Use back if necessary:
